About the National Angel Capital Organization

NACO supports Angels, incubators and accelerators as they help entrepreneurs turn good ideas into great businesses. As the only national industry association for Canada's early-stage ecosystem, NACO represents over 4000 members from the Angel, incubator, and accelerator communities across the country. Members assist Canadian startups in every region and industry to execute their vision and compete on the global stage by providing them with patient risk capital, expert advice, and professional networks when traditional financial and other institutions cannot.

By connecting individuals, groups, and other partners that support early-stage investing and support, NACO accelerates a thriving innovation ecosystem. NACO provides intelligence, tools, and resources for its members, facilitates key connections across networks, borders and industries, and helps to inform policy affecting the asset-classes.

About the 2018 World Angel Investment Summit

The Summit will attract over 700 investors, partners and industry leaders from around the world and is the flagship event for the Canadian Angel Investor community. The 2018 event will be the first ever NACO Summit to be hosted in Toronto. We will be building on the international focus introduced at the 2017 Summit in Montreal, making this the largest and most international gathering of Angel investors in Canadian history.

This will also be the first time that NACO partners with a larger event to ensure our community adds direct and immediate value to the local startup ecosystem. NACO will be partnering with the Elevate Tech Fest, offering both premium content for our attendees, as well as collaborating with Elevate to run their Financing track and cohost keynote speakers.

Consequently, the 2018 World Angel Investment Summit is the culmination of years worth of NACO's efforts to build Angel communities across the country, and will catalyze a more dynamic early stage capital ecosystem.
